9.  Other \_\_\_\_\_.

**EXAMINER'S AMENDMENT**

1. In claim 8, last line, the word "sensors" obviously refers to the sensors defined in line 7 of claim 1. Therefore, in claim 8, last line, the word "sensors" has been corrected to read -- the sensors -- so as to enhance clarity.
2. The above change to claim 8 is merely a correction of a minor informality. However, should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: European reference EP 1 216 910 appears to be closest to the invention defined in independent claim 1; however, the European reference does not include a combination of features as recited in instant independent claim 1, which requires a transport vehicle with sensors for detecting optical, acoustical, temperature, and acceleration data both at its front end, in the direction of travel, and at its opposite end, whereby one of the sensors is a laser scanner and the sensors are connected with a control computer disposed in the transport vehicle, which computer is part of a telematics system that monitors and controls the transport system, whereby the sensors interact with active and passive signal transmitters in the railway network. Note that elements 17, 18, 32 and 33 of the European reference do not represent the sensors for detecting optical, acoustical, temperature, and acceleration data both at the front end of the and rear end of the

vehicle, as defined in instant claim 1. Accordingly, independent claim 1 along with claims 3-8 and 10 depending therefrom are considered as being defined over the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MARK T. LE whose telephone number is (571)272-6682. The examiner can normally be reached on Mon-Fri, between 8:15-4:45 (Teleworking).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Samuel Morano can be reached on 571-272-6684. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
